

SOLID WASTE FACILITY PERMIT

1. Facility/Permit Number:

14-AA-0005

Bishop Sunland Solid Waste Site

2. Name and Street Address of Facility:

Bishop Sunland Solid Waste Site
110 Sunland Reservation Rd.
Bishop, CA 93514

3. Name and Mailing Address of Owner/Operator:

Inyo County Integrated Waste Mgmt.
783 N. Main St., Suite J
Bishop, CA 93514

4. Name and Mailing Address of Land Owner:

City of Los Angeles, Dept. of Water & Power
300 Mandich St.
Bishop, CA 93514

5. Specifications:**a. Permitted Operations:**☐ Composting Facility
(mixed wastes)☐ Processing Facility☐ Composting Facility
(yard waste)☐ Transfer Station☒ Landfill Disposal Site☐ Transformation Facility☐ Material Recovery Facility☐ Other:**b. Permitted Hours of Operation:** Public hours 7:30-3:30, Seven days a week, closed on specific holidays. Operation hours 7:30-4:30, seven days per week**c. Permitted Tons per Operating Day:**

Total: 120 Tons/Day

Non-Hazardous - General

112.9 Tons/Day

Non-Hazardous - Sludge

0.5 Tons/Day

Non-Hazardous - Separated or comingled recyclables

0.5 Tons/Day *Whole tire = .5 tons/day and green waste/feed stock

Non-Hazardous - Other (See Section 14 of Permit)

3* Tons/Day = 2.5 /tons/day

Designated (See Section 14 of Permit)

Contaminated Soil..... 3 Tons/Day

Hazardous (See Section 14 of Permit)

Non-friable Asbestos..... 0.1 Tons/Day

d. Permitted Traffic Volume:

Total: 235 Vehicles/Day

Incoming waste materials

230 Vehicles/Day

Outgoing waste materials (for disposal)

Vehicles/Day

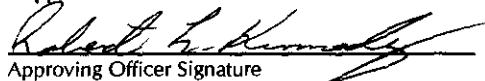

Outgoing materials from material recovery operations

5 Vehicles/Day

e. Key Design Parameters (Detailed parameters are shown on site plans bearing LEA and CIWMB validations):

	Total	Disposal	Transfer	MRF	Composting	Transformation
Permitted Area (in acres)	118.53	68.44	N/A	N/A	N/A	N/A
Design Capacity		4,039,760	cy	td	td	td
Max. Elevation (Ft. MSL)		4250	ft			
Max. Depth (Ft. BGS)		4123	ft			
Estimated Closure Date		2097				

The permit is granted solely to the operator named above, and is not transferable. Upon a change of operator, this permit is no longer valid. Further, upon a significant change in design or operation from the described herein, this permit is subject to revocation or suspension. The attached permit findings and conditions are integral parts of this permit and supercede the conditions of any previous issued solid waste facility permits.

6. Approval:

Approving Officer Signature

Robert L. Kennedy, Director Department of Environmental Health Services
Name/Title

7. Enforcement Agency Name and Address:

Inyo County Department of Environmental
Health Services
P.O. Box 427
Independence, CA 93526

8. Received by CIWMB:

AUG 3 1999

9. CIWMB Concurrence Date:

AUG 24 1999

10. Permit Review Due Date:

AUGUST 27, 2004

11. Permit Issued Date:

AUGUST 27, 1999

SOLID WASTE FACILITY PERMIT

Facility/Permit Number:
14-AA-0005
Bishop Sunland Solid Waste Site

Legal Description of Facility (attach map with RFD):

Section 19, T7s, R33E, MDB&M, Latitude 37° 19'N and longitude 118° 23'W

13. Findings:

- a. This permit is consistent with the Inyo County General Plan and the County-wide Siting element in accordance with PRC 50000.5.
- b. This permit is consistent with standards adopted by the California Integrated Waste Management Board (CIWMB). Public Resources Code, Section 44010.
- c. The design and operation of the facility is in compliance with the State Minimum Standards for Solid Waste Handling and Disposal as determined by the LEA. (By July 31, 1999)
- d. The Bishop Volunteer Fire Department and the California Division of Forestry has determined that the facility is in conformance with applicable fire standards as required in Public Resources Code, Section 44151.
- e. An environmental determination (i.e. Notice of Determination) is filed with the State Clearinghouse for all facilities which are not exempt from CEQA and documents pursuant to Public Resources Code, Section 21081.6.
- f. A County-wide Integrated Waste Management Plan has ~~not~~ been approved by the CIWMB.
- g. The Inyo County Planning Department had made a determination that the facility is consistent with, and designated in, the applicable general plan: Public Resources Code, Section 50000.5(a).
- h. The Inyo County Planning Department has made a written finding that surrounding land use is compatible with the facility operation, as required in Public Resources Code, Section 50000.5(b).

14. Prohibitions:

The permittee is prohibited from accepting any liquid waste sludge, non-hazardous waste requiring special handling, designated waste, or hazardous waste unless such waste is specifically listed below, and unless the acceptance of such waste is authorized by all applicable permits.

Acceptance allowed:

See bottom of page.

15. The following documents also describe and/or restrict the operation of this facility (insert document date in space):

	Date		Date
<input checked="" type="checkbox"/> Report of Facility Information	10/97	<input type="checkbox"/> Contract Agreements - operator and contract	6/95

Item #14 (Continued)

1. Non-friable Asbestos containing waste as provided for in section 17.
2. Petroleum contaminated soils for treatment as provided for in section 17.
3. Liquid waste for septage, chemical toilet, and associated commercial wastewater as provided for in the most current Waste Discharge requirements.
4. Used oil, used oil filters, antifreeze, and automobile batteries as provided for in section 17.
5. Dead animals as provided for in section 17.
6. Ash from household wood stoves or incinerators, and burn barrels as provided for in section 17.

SOLID WASTE FACILITY PERMIT

Facility/Permit Number:
14-AA-005
Bishop Sunland Solid Waste Site

16. Self Monitoring:

a. Results of all self-monitoring programs as described in the Report of Facility Information, will be reported as follows:

Program	Reporting Facility	Agency Reported To
Summary of daily record in tons/day of solid waste received, salvaged/recovered materials leaving the site (per type).	Quarterly*	LEA
Summary of motor vehicle counts on vehicles/day per vehicles entering the site and leaving the site with recovered materials.	Quarterly*	LEA
Summary of public complaints received, regulatory notices received from any responsible regulatory agency, and the operator's responses/corrective actions.	Quarterly*	LEA
Summary of entries in Log of Special/unusual Occurrences and operator's responses/corrective actions.	Quarterly*	LEA
Summary of record-keeping specified in the Hazardous Prohibition Waste Screening/Exclusion Program including: Quantities/types of materials discovered, responses/corrective actions taken, interim/final disposition of materials.	Quarterly*	LEA
Summary of gas monitoring results.	Quarterly*	LEA
Water quality control of contaminants-monitoring, reporting, remediation and related programs including: Waste discharge requirements, clean-up and abatement orders/work plans/remediation schedules.	(Per RWQCB)	LEA and RWQCB
Review the current RDSI and submit amendments to the RDSI if necessary including: topographic maps showing all filled areas of the facility; Health and Safety Training program, Load checking training program; total volume of waste capacity consumed as a result of waste disposal for the preceding year (yds ³); remaining landfill capacity (yds ³); and the most current list of personnel responsible for the operation of this facility which include emergency phone numbers.	Annual Report	LEA
Hazardous Materials Business/Contingency Plan	Biannually/As needed	LEA
Hazardous Material Inventory	Annually	LEA
*Indicates that the report is available for LEA review at the operator's administrative offices by the 15 th of the following month or the reporting period.		

SOLID WASTE FACILITY PERMIT

Facility/Permit Number:

14-AA-005

Bishop Sunland Solid Waste Site

7. LEA Conditions:

- A. The operator shall comply with State Minimum Standards for solid waste handling and disposal as specified in Title 14 and Title 27, California Code of Regulation (CCR). The operator shall not operate this facility without possession of all required permits/regulatory approvals. The operator shall inspect the site at a frequency sufficient to ensure compliance with all applicable standards/condition/mitigation/regulation as are applicable to this facility.
- B. The operator shall comply with all applicable federal, state and local requirements and enactments including all mitigation and monitoring measures and all administrative/enforcement orders of all regulatory agencies with jurisdiction at this facility.
- C. The operator shall maintain a complete copy of this SWFP on the premises. Copies of all LEA/CIWMB regulatory inspection reports and enforcement actions shall be maintained at the main Integrated Waste Management Office. Such reports to be readily available to facility personnel, LEA staff and other appropriate regulatory personnel.
- D. Additional information concerning the design/operation of the facility shall be furnished upon request to the LEA and other regulatory personnel.
- E. The operator shall notify the LEA in writing of any proposed change in the routine facility operation or changes in facility design during the planning stages. In no case shall the operator undertake any significant changes unless the operator first submits to the LEA a notice of said changes at least 150 days before said changes are undertaken. Any significant changes as determined by the LEA would require a permit revision.
- F. The LEA reserves the right to suspend and/or modify permit conditions at this facility when deemed necessary due to any emergency, potential health hazard, and/or public nuisance.
- G. The terms and conditions of this permit may change as a result of revision of applicable statutes or regulations.
- H. This permit does not release the operator from its responsibility under any other existing laws, ordinances, regulations, or statutes of other government agencies.
- I. A log of special occurrences shall be maintained. The log shall contain but not be limited to: fire, explosion, discharges, significant incidents of personnel injury, accidents, weather events, unusual and sudden settlement, discharge of hazardous or other wastes not permitted, and/or property damage. The log shall be maintained on the premises. Days without incidents shall be noted in the log with an appropriate negative entry.
- J. The load checking program and the gas monitoring program shall be carried out as approved by the LEA at least quarterly. Both plans shall be incorporated into the most current and approved RDSI.
- K. The operator shall provide adequate on-site and off-site litter control to collect accumulated materials, if any.
- L. The operator shall compile daily tonnage received and make available to the LEA quarterly.
- M. All tires shall be accepted, sorted, stored, and disposed of according to Title 14.
- N. Storage of green material feedstock and mulch/chips must be done in accordance with Title 14 section 17862.1 and 17862.2.
- O. Alternative daily cover can be used as approved in the current RDSI.
- P. Windrows/Berms, if used for delineation and construction of cells at the active face, will contain only inert materials. Any organic components or garbage lodged into these berms will require that the berms receive daily cover.
- Q. The land farm for petroleum contaminated soils shall be operated according to the tiered permitting requirements for notification in Title 14, the most current Waste Discharge Requirements, and the most current environmental review document.
- R. Drainage plans accepted and approved by the RWQCB shall be adhered to and incorporated in to the most current and approved RDSI.
- S. Dead animals shall be completely covered as soon as possible and at a minimum at the end of the working day with 6 inches of soil. Compaction follows after decomposition.
- T. Ashes from household wood stoves or incinerators, and burn barrels shall be deposited away from the working face and completely covered by the end of the working day with 6 inches of compacted soil as required in regulations.
- U. Used motor oil (removed within 90 days), oil filters (no more than 1 ton at any one time), antifreeze (removed within 90 days), and batteries (no more than 1 ton at any one time) shall be accepted, stored, transported, and recycled according to Title 22 regulations. Employees handling these materials shall be provided all Title 22 training. Documentation of removal (bill of lading) must be maintained in the records for a period of three years.
- V. The drinking water supply must be tested annually for bacteriological quality.
